Description	This is not a bitter, but rather a bright sour that can be used in a similar way - so think of it as our anti-bitter, if you will. Use when you want the bright flavor of orange juice without any of the texture or sugar that juice brings.		
Pairings	All Spirits		
Classic Cocktails	Negroni, Manhattan, Margarita, Daiquiri, in Soda Water		
EAN-13	0608866961840		
Notes	The name comes as a reference to cream sodas which got their "creaminess" due to the interaction of vanilla and acid, in this case citric acid. Works great in soda water. For drinks on the rocks, season the ice with a few drops of Orange Cream Citrate and it will slowly flavor the drink as the ice melts.
